

A large construction sign informs all that may have wondered, that yes, indeed, something is underway at Sigma Beta Fraternity
26 Madbury Road
Durham, NH 03824

and the old phone number was

(603) 868-9723 (pay phone)
(603) 862-1296 (campus phone)

for all of you who wondered and must not have memorized it well enough or perhaps often enough.

The ends of the house as of Tuesday, August 18, 2009.
Note the huge **stump** that Tom Moulton's crew unearthed.
One on the other side was already tossed out.

The parking lot is full of equipment and people. Note the crew is cutting into the pavement to figure out the question(s) on what is/not connected to the house.

The stairway to the boiler room. Still there, and still unattractive.

Now you see it

Now you don't.

Sat. Aug. 22, 2009

The shingles are completely off the front side of the house. Tom Moulton's foreman, Steve, told me that they were very brittle from 88 or so years outside in the sun and the elements.

note rotted wood Tom spoke of before.

Here's the bigger view of the house.
